RESUME

Le Tat Chien

Graphic designer & web developer

With over 15 years of experience in graphic design and programming,
I can work at an amazing speed, and able to make almost all of your ideas come true.

ABOUT ME

I am a Senior Web Developer - Graphic Designer who has an immense love for both computer science and art.

I soon realized that Web Programming is a beautiful mixture of arts, mathematics, designing and coding, so it was an easy decision to follow my chosen career path. My motto is "Impossible is a word only found in the dictionary of fools" meaning that with my creative imagination and strong technical background, I am capable of applying logic into systems and machines in order to make any client's ideas come true.
